

# Family Learning Support Program

*The Family Learning Support Program (FLSP) is a new service available to families living within Public Housing Estates in Fitzroy, North Melbourne, Collingwood, Flemington and Richmond. From **January - June 2021** we will work with families and early learning providers to connect parents and their children with early educational opportunities.*

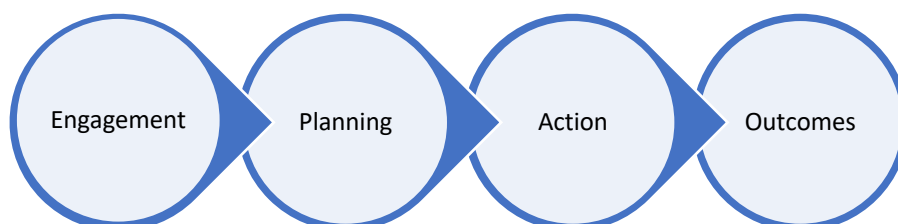

## Our work:

- Understanding existing relationships with Early Childhood Education and Care (ECEC) and playgroup opportunities for their children
- Understanding existing barriers to accessing these services above
- Assisting families to navigate systems, information, forms, enrolment processes to support attendance at ECEC services and receive financial support through child care subsidies
- Participating in network engagement with local ECEC service provider to support participation and enrolment
- Providing a suite of home learning activities to encourage learning during COVID restrictions that are practical and easily accessible in most households and routines

## Our goals:

- Parents and children have a rich home learning environment
- Parents and children have increased participation in ECEC opportunities; and improved relationships with early childhood professionals.

## Our steps:
